

# PROVEN STRENGTH,

McIntosh Bros. of Palmerston North, New Zealand have been building farm equipment for New Zealand and Australian Farmers for over 50 years. Attention to detail and listening to farmers needs they have built a range of Bale Feeders, Tipping Trailers and Silage Feed Out Wagons. Widely regarded in both countries as the market leaders with their innovative design, strength and

performance, these machines are widely used by many farmers. Recently, from a request from a contractor, McIntosh decided to build a line of high capacity chaser wagons with the same rugged and durable design and with features forage contractors are looking for. Thus the McIntosh Chaser Wagon is now a part of our range of products that we can offer you.

## Features...

- All steel body construction with 5mm steel floor and 3mm pressed steel sides.
- Fully seamed welded construction which minimizes rust traps
- Heavy wall 9mm RHS chassis frame complete with single bar drawbar pull and swivel toe eye.
- Greaseable bronze bushes on drive shafts and walking pins to provide long life and durability.
- All units are sand blasted prior to priming and finish coat painting. This gives a more durable and longer life finish and minimizes rust.

# QUALITY & PERFORMANCE

### Tailgate

The tailgate is designed with the tapered back to give maximum clearance for entering and exiting off stacks and the high lift ensures plenty of clearance for quick efficient unloading.

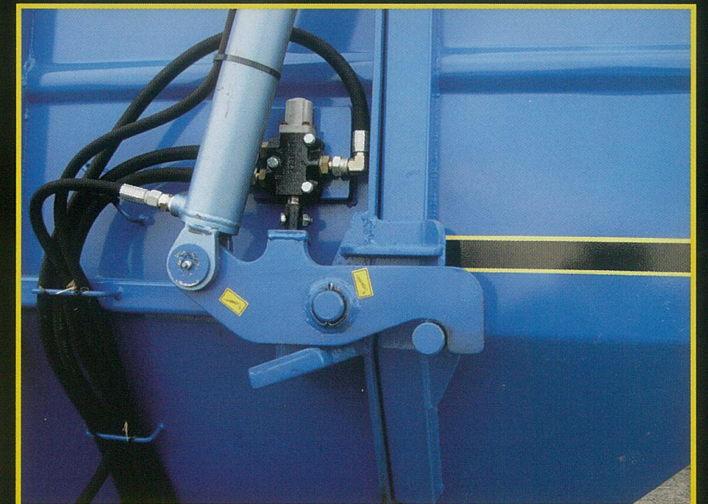

### Heavy Duty Drive

High speed hydraulic floor drive system with top quality, German made reduction gearbox. 4 x 10mm High tensile floor chains, bolt on floor slats and a large 55mm drive shaft, ensure reliable and long lasting durability

### Walking Beams & Axles

Heavy duty 8 stud axle assemblies, 9mm heavy wall walking beam, large floatation tyres and a 63mm pivot pin with 50mm offset.

### Tailgate Locks & Safety Valve

This ensures a rigid closer at all times to prevent spillage. The safety valve prevents accidental floor movement whilst the tailgate is closed.

## SPECIFICATIONS

Bin Capacity	31 m <sup>3</sup>
Bin Length	6,800 mm
Bin Width	2,350 mm
Bin Height	2,050 mm
Total Length	8,400 mm
Total Width	2,970 mm
Total Height	3,300 mm
Tare Weight	5,100 kg
Brakes	Two front axles, hydraulic applied

## OPTIONAL EXTRAS

Mud Guards  
Four Axle Braking  
Weighing Scales Fitted  
Additional Work Lights

*McIntosh Chaser Wagons can be custom built to suit your individual needs! Sizes of units and specifications can be altered to suit your requirements*
